THE PROS' EQUIPMENT

Tasmanian Tiger - The Pros' Equipment

Over the past twenty years, Tasmanian Tiger has built its high reputation for professional military and police equipment through many developments and innovations.

Our aim is not only to supply the highest quality products, but also to bring to life new ideas that specialists share with us from their daily use experiences.

A perfect example of this in 2019 was the rating of four Tasmanian Tiger products by the American Tactical Officers Association - 1 x Gold and 3 x Silver.

We have complemented our product range for 2020 with the additional color **stone grey olive** in our proven Cordura 700 den fabric material. It is equipped with an **Infra Red Reflective (IRR)** finish and complies with the Technical Delivery Conditions (TL) of the German Bundeswehr.

In 2020, we supplemented our field-proven medical equipment with the **TT Medic Assault Pack MK II L** and developed a camera and documentation backpack in our photo line with the **TT Modular 30 Camera Pack**.

In 2020, we continue to expand the modularity of our collection to provide even more flexibility with the use of Tasmanian Tiger equipment. With the new **TT Modular Medic Insert**, many of the Tasmanian Tiger backpacks can be easily converted into highly functional medic packs. In addition, new to the 2020 range are the **TT Modular Camera Insert** and two new **TT Modular Lens Bags**.

We have also expanded the 2020 range with two small backpacks: the **TT Tac Modular SW Pack** and the **TT City Daypack**, both designed for undercover operations and civilian use.

We look forward to new challenges in 2020!

IRR PERFORMANCE

NIGHT CAMOUFLAGE

THE TT PRODUCT RANGE EQUIPPED WITH IRR PROTECTION

CORDURA® &
INFRA-**R**ED
REFLECTANCE 

Tasmanian Tiger manufactures tactical equipment of the highest level and addresses the security issue of camouflage, under the observation of night vision devices, with an extensive product range.

Chest rigs and plate carriers, mission and medic backpacks as well as magazine pouches, tactical pouches and daypacks are offered in the color **stone grey olive with certified IRR treatment**.

Both the European CORDURA® materials as well as webbing, hook-and-loop fasteners and buckles meet the high German Bundeswehr standards TL 8305-0278 and TL 8305-0281 with regard to the IRR camouflage effect (IRR 650 - 1250nm / 10 - 42%).

BACKPACKS

X1 SYSTEM

The size-adjustable high-end X1 Carrying System was specially developed for high loads over 40 kg. Particular attention was paid to the adjustability, ergonomics and ventilation of the system. Durable materials, multi-layered structures and reinforcements in the right places make the system stable and durable.

Two ergonomically shaped, crossed aluminium bars (1) lead laterally into the hip belt (2) transferring the load from the back to the hips. The anatomically fitting hip belt consists of multi-layered hip fins with PE reinforcement plates. It can be easily adjusted and tightened by the deflected belt strap (3). A rubberised lumbar pad (4) prevents the backpack from slipping and an anatomically shaped aluminium rod (5) helps to optimize the fit. The back padding (6) above it is ultra-concave in shape, sewn into chambers for better ventilation, and rests perfectly against the back with its generous technical padding. The load control straps (7) can be partially attached in two different positions for optimum setting. Ergonomically shaped shoulder straps (8) with height adjustment (9) increase the level of comfort. The lid is also height adjustable (10).

V2 SYSTEM

The size-adjustable V2 Carrying System was developed for medium to high loads up to 40 kg. A combination of aluminum and fiberglass bars results in an excellent balance of efficiency and flexibility in load transmission with low own weight. Channels on the back padding ensure good air circulation.

Two to a "V" arranged aluminum bars (1) and two load-transmitting fiberglass bars (2), which lead laterally into the hip belt (3), form the central static unit. The three-part, ergonomic hip belt consists of a lumbar pad (4) with rubberized insert against slipping of the backpack as well as two conical cut, multi-layered hip wings with a PE-plate reinforcement. The hip belt can be easily tightened and adjusted by means of the deflected belt strap (5). The back padding (6) has a concave shape and is sewn into chambers for better ventilation. It has good contact with the backpack. The load control belts (7) can be fastened in two different positions and thus allow an exact adjustment. Comfortable shoulder straps (8) with the possibility of height adjustment (9) complete the wearing comfort. The lid is height adjustable (10).

TASMANIAN TIGER - COMPETENCE IN CARRYING

Tasmanian Tiger has over 30 years of experience in backpack construction and proven expertise in high-performance backpack carrying systems.

When developing our backpacks, we place great value on ergonomic design, durable materials, functionality, and a perfect fit. For long journeys with a heavy load, the most important thing is the comfort of the backpack. That is why, in addition to the selection of the right pack sack, the selection of the right carrying system plays a central role.

The heart of a Tasmanian Tiger carrying system revolves around an internal frame structure that transfers the weight of the pack sack to the hip muscles via the hip belt. This transfer assures that pressure is relieved from the shoulders and spine. It is a basic fundamental that the heavier the load the more stable the support system must be.

However, the load transmission should not be completely stiff, but must remain flexible enough to ensure that even in rough terrain, the carrier can be agile in his/her movements, especially when traversing large obstacles. For the load transfer to work optimally, the carrying system must also function for various sized individuals. To ensure this, the Tasmanian Tiger carrying systems are adjustable in size and can be custom fit to a wide range of back lengths.

Because a backpack not only has to fit the application, its respective requirements, and the carrier, we have developed different carrying systems for different backpack models, shown on this page.

Tasmanian Tiger – Carrying Systems for every mission.

V2 PLUS SYSTEM

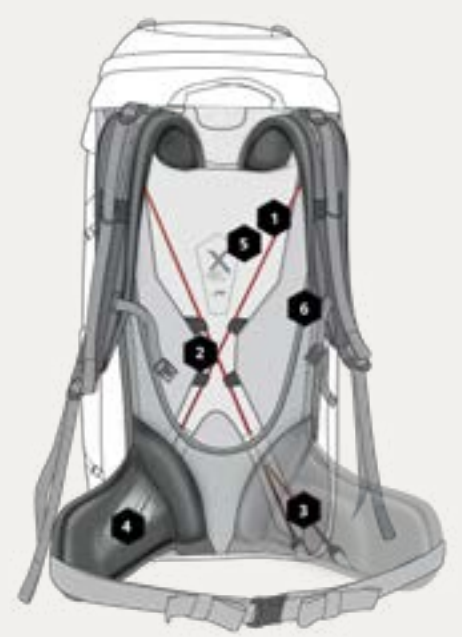

The size-adjustable V2 Plus Carrying System was developed for medium to high loads up to 40 kg. Backpacks with this system offer great adjustability of the back length and can be worn through the detachable hip belt even with fully loaded vests and chest rigs.

Two V-shaped aluminium rods (1) guide the force directly into the reinforced hip strap. The three-part ergonomically shaped hip strap consists of a lumbar pad with a rubberised insert (2) to prevent the backpack from slipping, and two conically shaped hip wings (3). The hip belt, which runs under the lumbar pad, can be removed, if necessary. The hip wings have several layers of padding and are reinforced with a PE plate. The hip strap is easy to tighten using the deflected belt strap (4). The back padding (5) is concave and sewn into chambers to provide pleasant ventilation. The height of the wide, ergonomically shaped shoulder straps is adjustable (6), and together with the load control straps (7), they ensure a close, firm fit of the backpack.

X VENT ZERO PLUS SYSTEM

The X Vent Zero Plus Carrying System combines excellent ventilation with excellent fit and low weight. The tension of the system can be used to regulate the distance from the pack to the back, right up to force fit carrying.

Two fiberglass rods are attached in an X-shape (1) to the back of the pack and provide, together with the integrated hip belt, the supporting structure of the pack (2). Two additional fiberglass rods (3) transfer the load to the anatomically shaped, ventilated hip belt (4). The open space created by the supporting structure (5) results in an extremely large ventilation zone. The system allows for the tension of the X-shaped fiberglass rods to be adjusted (6), which varies the distance of the load to the back – changing also the center of gravity of the load.

TT RANGE PACK MK II

Item number: 7605
Color: 331 olive, 346 coyote brown
Size / Volume: 84 x 35 x 27 cm / 90 l + 10 l
Weight: 4,40 kg (without detachable pockets 3,50 kg)
Material: CORDURA® 700 den

Modular, large capacity backpack for individual combatants on mission for several weeks. The front pocket of the rucksack can be detached and used as a daypack, the side pockets are the same as the TT Tac Pouch 8 SP (item 7773) and can be used on any appropriately designed MOLLE panel.

[1] X1 Carrying System [2] Packsack with snow guard [3] Divided main and bottom compartments [4] Fixation for hiking poles or ice axes [5] Height adjustable chest belt [6] Compression straps on sides [7] Compression around perimeter of base [8] Detachable lid with 3 zip pockets (2x outside, 1x inside) [9] Additional detachable side pockets (each 5 l, 7773 TT Tac Pouch 8 SP) [10] Front pocket unzips for use as a daypack (7 l) [11] Weight of main backpack including front- and side pockets = 4,40 kg // Weight of main backpack without front- and side pockets = 3,50 kg [12] MOLLE system on the sides

TT PATHFINDER MK II

Item number: 7622
Color: 331 olive, 346 coyote brown
Size / Volume: 84 x 35 x 22 cm / 80 l
Weight: 3,25 kg
Material: CORDURA® 700 den

Fully-fledged combat backpack for several days in the field. Large, variable volume compression flap on the front for helmets etc. The MOLLE system on the sides is used to attach additional pockets.

[1] V2 Carrying System [2] Packsack with snow guard [3] Removable section between main and bottom compartment [4] Fixation for hiking poles or ice axes [5] Height adjustable chest belt [6] Compression straps on sides [7] Compression around perimeter of base [8] Variable volume compression flap e.g. to attach a helmet [9] Handle on front and back [10] Detachable lid, divided into 3 [11] Hydration system compatible [12] Side pockets [13] MOLLE system on all the important attachment areas

TT FIELD PACK MK II

Item number: 7963
Color: 331 olive, 346 coyote brown
Size / Volume: 73 x 32 x 21 cm / 75 l
Weight: 2,65 kg
Material: CORDURA® 700 den

Universal combat backpack with a total capacity of 75 liters. The TT Fieldpack MK II is designed for transport of up to approx. 40 kilograms. Main and bottom compartment can be divided for separate storage of wet or dirty clothing, etc. Molle on the front and on the sides serves the individual extension. The V2 Carrying System, which can be adjusted to your own back length, combines a low weight in relation to the size with outstanding flexibility and efficient load transfer

[1] V2 Carrying System [2] Packsack with snow guard [3] Removable section between main and bottom compartment [4] Height adjustable chest belt [5] Compression straps on sides [6] Handle on front and back [7] Height adjustable lid with zip compartment [8] Hydration system compatible [9] Port for antenna [10] MOLLE system for optional attachment of additional pouches [11] 7572 TT Tac Pouch 9 SP can be used for example as a side pocket [12] 7573 TT Tac Pouch 10 can be used for example as a lid pocket

NEW

TT RAID PACK MK III

Item number: 7711
Color: 040 black, 331 olive, 346 coyote brown
Size / Volume: 65 x 32 x 24 cm / 52 l (48 l + 2x 2 l)
Weight: 2,90 kg
Material: CORDURA® 700 den

Classic military backpack with a total capacity of 52 liters and V2 Plus Carrying System. The TT Raid Pack MK III has a main compartment with a volume of 48 liters and two fixed side pockets with a volume of 2 liters each. Molle on the front, the lid, the side pockets and on the hip belt allows individual extension. The V2 Plus Carrying System of the backpack is designed for a weight of up to approx. 40 kilograms and offers great variability when adjusting the back length. Due to the removable hip belt, the backpack can also be carried with fully equipped chest rigs and vests. The hip belt can be used separately as a Warrior Belt.

TT RAID PACK MK III IRR

Item number: 7209
Color: 332 stone grey olive

Transportable pouch panel to extend the TT Medic range.

[1] Four durable handles [2] Strong No.10 zipper [3] Various attachments to secure additional equipment [4] MOLLE hook-and-loop adapter to secure hook-and-loop pouches (e.g. TT Rescue Pouch) [5] Panel divides into four small panels [6] The transparent pouches are all detachable and can be interchanged [7] Some transparent pouches with two compartments and various loops [8] The panels all have attachments to secure to tents, vehicles etc. [9] Large long pockets on backs of panels

TRANSPORTABLE & EXPANDABLE

TT MEDIC TRANSPORTER

① The panel is made up of four single panels that can be zipped together with No. 10 zips. The single panels are made of MOLLE hook-and-loop with a number of elastic loops and a strong handle ②.

The single panels (dimensions: 51 x 23 cm) can be equipped individually and stowed away e.g. in vehicles, helicopters etc. Large hooks are available as individual attachment systems. The large panel is suitable for tents and fixed stations.

The clear and single pouches ③ can be arranged and used as desired. Hook-and-loop areas can be labelled with the user's own or with the TT themed options ④. If using hook-and-loop pouches, they can be attached to the panels that are included in the delivery.

⑤ A TT Dump Pouch (product component) on the front keeps things in order.

⑥ Strong No. 10 zips connect the individual panels. Full back view.

⑦ There are slot compartments on the back of the individual panels where flat items of equipment can be kept.

⑧ When the panels are connected, the entire package can be rolled up, compressed with buckles, and carried by the handles.

⑨ Back side complete mounted.

TT MODULAR 30 CAMERA PACK

Item number: 7192
Color: 040 black, 331 olive, 346 coyote brown
Size: 58 x 28 x 19 cm / 30 l
Weight: 2,40 kg
Material: CORDURA® 700 den

Modular backpack conceived as a camera and documentation pack. The focus here is on comfort and usability. The main compartment features front access and an extra top opening so you can quickly grab your camera. The interior of the backpack has adjustable partitions for cameras and lenses; the partitions can of course be removed completely. A little organizer pocket for memory cards and filters can also be removed. The backpack has a lid pocket and deep side pockets that are meant to hold a tripod and can be secured with lateral compression straps. Laser-cut MOLLE on the sides and front can be used to add gear as you see fit. The padded back panel system, which includes the padded hip belt, makes the backpack super comfortable to carry. The hip belt with laser-cut MOLLE can also be used to attach accessories, for example lens pouches, and can be removed

NEW

TT MODULAR 30 CAMERA PACK IRR

TT CHEST RIG LP

Item number: 7686
Color: 040 black, 331 olive, 346 coyote brown
Size: Unisex
Weight: 410 g
Material: TPU CORDURA® 700 den

Mid-split, flat and lightweight chest rig with flat shoulder straps made of TPU CORDURA®. Can be worn individually, adapted to a plate carrier or used together with a backpack.

[1] Width adjustment [2] Adjustable, flat padded straps [3] Centered divisible stable No. 10 zipper [4] Easy to remove the system including equipment from the plate carrier [5] Laser cut MOLLE on all important fastening surfaces [6] Makes it easy to remove the equipment without losing ballistic protection

TT MODULAR RIG

Item number: 7193
Color: 331 olive, 343 khaki, 346 coyote brown
Size: Unisex
Weight: 740 g
Material: CORDURA® 700 den

Simple harness for use under or over plate carriers. The TT Modular Rig is specially suited for use in hot regions.

[1] Adjustable, flat padded straps [2] Length-adjustable elastic side attachment

TT MODULAR RIG MC

Item number: 7194
Color: 394 multicam
Size: Unisex
Weight: 740 g
Material: CORDURA® 500 den

[3] MOLLE system on all the important attachment areas [4] Quick release system with ROC buckle

The items 7193 and 7194 are equipped with the same features. Item 7194 is made of Cordura® 500 den.

TT VEST BASE PLUS MKII

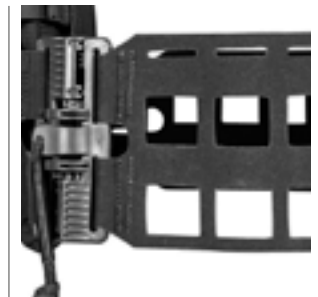

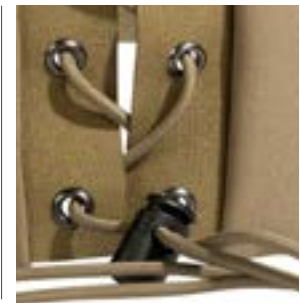

Item number: 7718
Color: 040 black, 331 olive
Size: Unisex
Weight: 720 g
Material: CORDURA® 700 den

Length- and width-adjustable tactical Molle waistcoat with slot compartments for ballistic panels on the inside. The waistcoat is easy to put on and take off, and has a wide range of variable attachment options. If required, it can be fitted with ballistic SAPI panels (30 x 25 cm).

[1] Length-adjustable rubberised padded shoulder section left and right
 [2] Zip compartment on the front [3] Front zip [4] Length of side sections adjustable [5] Front in mesh material [6] Front with fold-away compartment for armour plates [7] Insert for armour plate on back [8] MOLLE system for additional equipment [9] MOLLE system on the backside

TT SECRET CUMMERBUND

Item number: 7134
Color: 040 black, 043 carbon, 343 khaki
Size: Unisex
Weight: 170 g
Material: CORDURA® 700 den / T-Stretch

Universal underbelt for undercover deployments. The TT Secret Cumberbund is equipped for custom attachments using the MOLLE hook and loop panels and has elastic side pockets for pistol magazines or radio devices. It has hook and loop closures and can be adjusted for width with a bungee cord system.

[1] Length min. 95 cm - max. 115 cm / width 14 cm [2] Width adjustment by rubber lacing [3] Hook-and-loop closure [4] Four hook-and-loop surfaces (loop) on the outside [5] Eight elastic insert pockets, two of them with hook-and-loop patches inside [6] To be used for pistol and AR15 magazines

TT PLATE CARRIER LP

Item number: 7575
Color: 040 black, 331 olive, 346 coyote brown
Size: Unisex
Weight: 375 g
Material: T-Stretch / T-Square Rip

Extremely light panel carrier made of elastic materials and air-permeable mesh. The carrier is designed as an under-carrier. The elastic side sections include pouches for two magazines, radio or small items. No attachments on front. The size is designed for standard SAPI panels until 30 x 25 cm. Due to its design as an „under-carrier“ and the associated choice of material, the plate carrier is not suitable for everyday infantry use.

[1] Shoulder straps can be adjusted in length [2] Length-adjustable elastic side attachment [3] Ultra flat construction [4] Small pocket with hook-and-loop closure on the front [5] Suitable for SK4 panels until size 30 x 25 cm [6] Hook-and-loop patch on front- and backside (loop)

TT PLATE CARRIER QR SK ANFIBIA

Item number: 7895
Color: 040 black, 331 olive, 346 coyote brown, 343 khaki
Size: Unisex
Weight: 765 g
Material: TPU CORDURA® 700 den

Sturdy plate carriers made of TPU CORDURA® 700 with hook-and-loop patches and quick-release system with ROC buckle. Skeletization makes it suitable for amphibious operations as well. The size is adjustable and designed for all common SAPI plates from 30 x 25 cm to 33 x 27 cm.

[1] Length adjustable shoulder straps [2] Inclusive two elastic pouches [3] Suitable for SK4 panels in sizes 30 x 25 cm until 33 x 27 cm [4] Compatible with TT Mag Pouches VL [5] Length-adjustable, elastic MOLLE side panel with quick release buckle [6] Quick release system with ROC buckle

TT CARD HOLDER RFID B

Item number: 7855
Color: 040 black, 331 olive
Size: 9,5 x 6 cm
Weight: 15 g
Material: T-Square Rip / CRYPTALLOY®

Foldout sleeve with RFID reader protection for at least four credit cards, bank cards, key cards or ID cards in credit card format.

[1] Best RFID scan protection with TÜV certified RFID blocking material CRYPTALLOY® [2] Shielding against all frequencies and can be used for all cards, [3] Space for at least four cards [4] Elastic strap closure

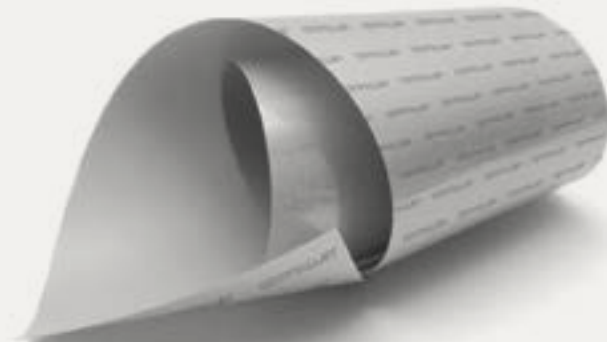

RFID readers are small, easy to obtain and – with the right criminal energy – to manipulate. As the radio waves pass through a large number of substances and materials, it is possible for data to be stolen “in passing”.

Possible consequences:
identity theft, loss of credit, exposure of behaviour and movement profiles, unauthorised access to business and/or private premises, etc.

TASMANIAN TIGER uses **Cryptalloy®**, a special metal alloy made by Krypton Technologies of Munich, for its RFID Block products. Compared with regular metallised foils, coatings and fabrics of the same strength and flexibility that still allow a proportion of the radio frequency through, **Cryptalloy®** almost completely blocks the signal (remaining signal no longer measurable). **Cryptalloy®** has been tested by SGS/TÜV Saarland Foster GmbH, and is confirmed and certified as suitable for screening against the unauthorised reading of RFID chips (including remote chips, NFC) on commercial frequencies 125 kHz, 13.5 MHz and 900 MHz. What is significant is the protection on frequency 125 kHz. Protection against this frequency guarantees maximum protection against all the usual RFID frequencies.

CRYPTALLOY®
RFID DOCUMENT SAFE

TT WALLET RFID B

Item number: 7766

Material: CORDURA® 700 den

Belt bag for disposable and tactical gloves. Can be carried open or closed.

[1] Room for two pairs of latex gloves [2] Can be carried horizontally or vertically [3] Space for one pair of leather tactical gloves [4] With hook-and-loop fastening for 30 to 55 mm belt and coupling systems

TT MODULAR PATCH HOLDER

Item number: 7615
Color: 040 black, 331 olive, 346 coyote brown
Size: 15 x 7 cm / 32 x 7 cm
Weight: 55 g (Set)
Material: CORDURA® 700 den

MOLLE compatible patches with hook-and-loop closure. They can be fixed to every kind of equipment, rigs, and vests. Easy to use for names patches and gear identification kits.

[1] Small patch: 15 x 7 cm. Large patch: 32 x 7 cm [2] Can be fixed on MOLLE systems

TT TAC HOLSTER MK II

Item number: 7795

Color: 040 black, 331 olive, 343 khaki, 346 coyote brown

Size: 23 x 12 x 4 cm

Weight: 190 g

Material: CORDURA® 700 den

Adjustable pistol holster to fasten with the MOLLE system.

[1] Only available in a right-hand version [2] Safety closure (hook-and-loop)
[3] MOLLE system

TT TAC HOLSTER MK II MC

Item number: 7867

Color: 394 multicam

Size: 23 x 12 x 4 cm

Weight: 190 g

Material: CORDURA® 500 den

The items are equipped with the same features. Item 7795 is made of Cordura® 700 den, item 7867 is made of Cordura® 500 den.

TT LEG BASE

Item number: 7674

Color: 040 black, 331 olive, 346 coyote brown

Size: 21 x 25,5 cm

Weight: 360 g

Material: CORDURA® 700 den

MOLLE system leg plates.

[1] Loops to fix to waist belt [2] Adjustable with two non-slip leg straps
[3] Pre-formed, rigid MOLLE system plate for holsters, magazines and accessories

TT INTERNAL HOLSTER VL R

Item number: 7589

Color: 331 olive

Size: 12 x 12 x 2 cm

Weight: 50 g

Material: TPU CORDURA® 700 den

Adjustable flat hook-and-loop holster made of TPU CORDURA® 700 den.
Primary use: Weapon transportation and fixation in modular rucksacks or e.g. in 7954 TT Hip Bag MK II.

[1] Hook-and-loop on the backside (hooks) [2] Length adjustable, detachable weapon harness

Video:

TT TAC SLING 1

Item number: 7670
Color: 040 black
Size: 105 x 3 cm
Weight: 75 g
Material: Spandex Webbing / T-Stretch

Short elastic strap with two rifle hooks. Serves to quickly get the weapon under tension in position.

[1] Made from 25 mm elastic webbing [2] Includes two metal snaphooks [3] Quick-release fastener [4] For quickly getting the MP fastened in the TT Tac Slingpack at the ready

Video:

TT STORAGE SLING

Item number: 7671
Color: 040 black, 346 coyote brown
Size: 105 x 3 cm
Weight: 60 g
Material: Spandex Webbing / T-Stretch

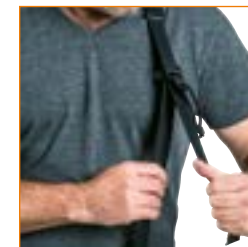

Removable strap, can be fastened to the side of the equipment with two MOLLE buckles. Makes it possible to affix an MP or long weapon in the resting position.

[1] Made from 25 mm elastic webbing [2] For lateral securing of the weapon

TT GUN SLING

Item number: 7666
Color: 040 black, 346 coyote brown
Size: 180 x 2,5 cm
Weight: 115 g
Material: Polyester Webbing

Simple weapons carrier strap with quick adjustment. Can be used as a single sling.

[1] Length adjustable [2] Made from 25 mm webbing [3] Quick movement into the rest position [4] Fast and safe movement of the weapon into position

TT SINGLE SLING

Item number: 7905
Color: 040 black, 331 olive, 346 coyote brown
Size: 105 x 3 cm
Weight: 240 g
Material: Polyester Webbing

Functional one point sling.

[1] Made from 30 mm webbing [2] Includes two metal snaphooks [3] Shock cord allows sling to be tighter yet provide more freedom when shouldering your weapon [4] Side release buckles for quick release in emergency situation [5] Fast and safe movement of the weapon into position

APPAREL

TT IDAHO M'S PULLOVER

Item number: 7653
Color: 040 black, 331 olive, 343 khaki
Size: XS – 3XL
Weight: 200 g (L)
Material: T-Microfleece 100D

Fleece pullover made of T-Microfleece 100D anti-bacterial material.

[1] Flatlock stitching to avoid chafing [2] Stand-up collar with chin protection and zipper

TT NEVADA MK III M'S JACKET

Item number: 7205
Color: 040 black, 331 olive, 343 khaki
Sizes: XS – 3XL
Back Length: 78 cm (L)
Weight: 600 g (L)
Material: T-SoftShell 3L
Breathability: 8.000 g/m²/24h
Water column: 20.000 mm

Breathable SoftShell jacket, windproof and warm.

[1] Seams are not sealed for waterproofness. However, as a result of the seam construction, water penetration has been prevented as best as possible [2] High collar [3] Soft chin protection [4] Adjustable, elastic string in the collar [5] Pit zips for increased ventilation [6] Hook-and-loop patches on upper arm pockets [7] E/string-adjustable hem [8] Two fitted upper arm pockets with zip fastening [9] Front pockets with zip closure [10] Chest pockets with zipper [11] Bounded sleeve hem [12] Embroidered logo

TT DAKOTA RAIN M'S PANTS

Item number:	7201
Color:	040 black, 331 olive, 798 darkest grey
Sizes:	46 – 56
Weight:	500 g (52)
Material:	T-Vent 3L
Breathability:	15.000 g/m ² /24h
Water column:	20.000 mm

Robust, elastic rain pants and overall pants made from waterproof and breathable T-Vent 3L.

[1] CORDURA® 700 PD inserts in ankle area [2] Ergonomically shaped knee [3] Thermo fusion two-way zip along leg [4] Front closure with zip and snap button [5] Fixed elastic belt with hook closure at the waist [6] Adjustable hem [7] Logo print [8] Regular fit

Item number: 7181
Color: 462 4-color snow forest
Back Length / Front length: 116 cm / 97 cm
Weight: 365 g
Water column: 1.500 mm
Material: T-Cover Tex

Water-resistant rain poncho with TT snow camouflage. Waterproof rain poncho with hood and zipper-close sides. A large zipper opening in the front allows for quick access to the front panels. Includes packing bag.

[1] Including stuff bag [2] Two-way zipper in the side seams [3] Zipper closure front opening for underlying chest rigs [4] Fixation securing fabric in heavy wind conditions [5] Taped seams [6] TT snow camo print [7] Hood with drawstrings and cord stopper [8] Sleeve ends with press studs for adjustment

NEW

TT WEBBING STRAP

Item number: 7217 / 7218 / 7219 / 7220
Color: 331 olive
Size: 75 x 1,8 cm, 100 x 1,8 cm, 150 x 1,8 cm, 300 x 1,8 cm
Weight: 32 g / 36 g / 42 g / 84 g
Material: Polyester Webbing

Pack strap for minimising volume. This strap enables you to compress your luggage and save volume. Or the strap can be used to attach baggage to the outside of your rucksack.

[1] Length adjustable

TT CHESTBELT

Item number: 7212 / 7213
Color: 040 black, 331 olive, 346 coyote brown
Size: 50 x 2 cm, 50 x 2,5 cm
Weight: 35 g / 40 g
Material: Polyester Webbing

Functional chest belt for ergonomic carrying. This accessory for compatible rucksacks is simply attached to the existing eyelets on the shoulder straps to add extra stability.

[1] Length adjustable

TT REEPSCHNUR / 20 M

Item number: 7885
Color: 040 black, 331 olive, 346 coyote brown
Size: 4 mm x 20 m
Weight: 135 g
Material: Nylon

WARNING:
 This item is not a safety product - not suitable for rock climbing!

NEW

TT HIP BELT 25 MM / 38 MM

Item number: 7240 / 7241
Color: 040 black, 331 olive, 346 coyote brown
Size: 110 x 2,5 cm, 110 x 3,8 cm
Weight: 50 g, 80 g
Material: Polyester Webbing

Functional waist belt for ergonomic carrying. This accessory for compatible rucksacks is simply attached to the existing eyelets at hip height to add extra stability.

[1] Length adjustable

TT SR 25 MOLLE

Item number: 7881
Color: 040 black, 331 olive
Size: 4,5 x 3,4 cm
Weight: 20 g
Material: Acetal

NEW

TT SR 25 V MOLLE

Item number: 7886
Color: 040 black, 331 olive
Size: 4,5 x 3,4 cm
Weight: 20 g
Material: Acetal

TT H&C STUFF 1L

Item number: 7801
Color: 331 olive
Size: 14 x 5 x 2 cm
Weight: 5000 g
Material: Stainless steel 18/8

Unbreakable insulated bottle made of stainless steel.

[1] Keeps hot things hot and cold things cold [2] Food-safe and resistant against the acids in fruit

TT SR 25 / SR 38 / SR 50

Item number: 7882 / 7883 / 7884
Color: 040 black
Size: 6 x 3,5 cm / 7 x 4,8 cm / 8 x 6 cm
Weight: 12 g / 22 g / 34 g
Material: Acetal

Quick-release buckle for repairs and replacement, available in the sizes 25 mm, 38 mm, and 50 mm.

[1] Three sizes [2] Suitable for 25 mm webbing

NEW

TT CARRYING STRAP 50MM

Item number: 7210
Color: 040 black, 331 olive, 346 coyote brown
Size: 120 x 5 cm
Weight: 130 g
Material: CORDURA® 700 den, Polyester Webbing

Padded shoulder strap. The length of the shoulder strap can be individually adjusted and is very comfortable to carry thanks to the sewn-in shoulder padding.

[1] Size adjustable carrying strap with shoulder pad, [2] Secret pocket under hook-and-loop patch, e.g. for coins, [3] Includes two metal snaphooks, [4] NON-slip material, [5] Hook-and-loop surface (loop) for patches etc.

NEW

Item number: 7211
Color: 040 black, 331 olive, 346 coyote brown
Size: 27 x 7 cm
Weight: 40 g
Material: CORDURA® 700 den

Shoulder pad to make carrying heavy loads easier. Absorbs the load transfer on the shoulder and fits on a strap up to 5 cm wide.

[1] Extra shoulder cushion for heavier loads [2] Secret pocket under hook-and-loop patch, e.g. for coins [3] NON-slip material [4] Hook-and-loop surface (loop) for patches etc.

SOCIAL · TRANSPARENT · FAIR

TRANSPARENCY INSPIRES TRUST

Tasmanian Tiger products are made to European manufacturing standards under high social conditions at our own factories in Vietnam. Under our **OPEN FACTORY** program, you are very welcome to visit our factory Mountech Co. Ltd. on any Friday and experience how it operates.

www.openfactory.tatonka.com

MATERIAL OVERVIEW (Selection of materials)

CORDURA® 500 DEN (100% polyamide). Made from INVISTA high tenacity, air-jet textured nylon 6.6 in 500 denier. The CORDURA® brand provides fabrics that are recognized for their long-lasting durability and resistance to abrasions, tears and scuffs; they are more durable than other fabrics. CORDURA® fabric offers a superior strength-to-weight ratio, making it a first-choice for durable fabrics.

CORDURA® 700 DEN (100% polyamide). CORDURA® in fibre thickness 700 den combines the high wear and tear resistance of the classic 1000 den fabric with the lightness of the 500 den fabric.

CORDURA® WITH IRR PROTECTION Tasmanian Tiger manufactures tactical equipment in the color stone grey olive with certified IRR treatment. Both the European CORDURA® materials as well as webbing, hook and loop fasteners and buckles meet the high German Bundeswehr standards TL 8305-0278 and TL 8305-0281 with regard to the IRR camouflage effect (IRR 650 - 1250nm / 10 - 42%).

The Japanese company **YKK** is the global leader in zipper manufacturing and has a vast array of products in its range. Tasmanian Tiger has used YKK zippers for many years in its collection, in particular the tear-resistant YKK zippers with RC (Racquet-Coil) technology.

The YKK Fastening Products Group is trusted worldwide for impeccable production standards and thorough quality control processes.

The South Korean plastic buckle manufacturer, Woojin, operates a production site in Vietnam, which means resource-friendly transport distances between our facilities. Woojin and Tasmanian Tiger have been working together for so many years we're almost like family. The relationship includes not just development coordination but also exclusive fabrication. Tasmanian Tiger uses **WOJIN** components throughout its entire range of products.

Our side release buckles, zipper pulls, ect. have inspired top designers worldwide to innovate the next generation of tactical products.

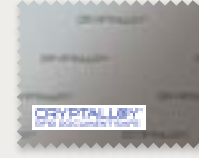

200 DEN POLYESTER PU (100% polyester) Lightweight, strong Oxford fabric in 200 den polyester yarn with triple PU coating.

420 HD NYLON (100% polyamide). The classic 420 den Nylon material has proved itself in the „high density“ (HD) version as a good, very flexible basic material. The 420 den yarn gives it a very high tear resistance. The material is made waterproof by the triple PU coating.

TEXTREME 6.6 (100% polyester). The textured polyester material in 600 den threads is robust, colourfast and versatile. PU-coated to achieve a weatherproof finish.

CRYPTALLOY® (aluminium alloy). Screening products with the specially developed tear-resistant material CRYPTALLOY® offer the highest level of protection against RFID/NFC attacks. The TÜV certified material blocks radio waves on all the usual RFID frequencies and can be used for all cards.

110DTEX PA6.6 SILICON (100% polyamide). Lightweight, double-sided silicone-coated and printed Nylon fabric in 5-color camouflage. The material according to TL 8305-0278 is used for rain covers.

T-COVER TEX (100% polyester). This very light, waterproof material made out of polyester is pleasantly soft to the touch, and is used mainly for rain ponchos, rain covers and stuff bags.

T-SOFTSHELL 3L (Outer layer: 100% Polyamide, inner layer: 100% polyester, membrane: 100% polyurethane). This technical 3-layered SoftShell material has a polyamide outer and a soft micro-fleece inner side, is wind- and water repellent as well as breathable.

T-Vent 3L (Outer layer: 92% polyamide, 8% elastane, inner layer: 100% polyamide, membrane: 100% polyurethane). This robust, elastic, wind- and waterproof 3-layered material is used for high-quality hardshell jackets. This ultrathin non-porous membrane is extremely waterproof and offers a high air permeability and stretchability.
